

## **2010 – Reconstruction of the visit from US Intelligence at the island in the South of Thailand:**

When I was visited by US Intelligence on the island in the South of Thailand it must be already the 1st Quarter of 2010 and not the second. Reconstructing from my archives. I wrote and published the „911 Open Letter“ and the main information about the UFO Coverup in March 2010 at my blog. I must be very naive, because there was another website linked to it which pointed directly at my location in Thailand. In any case it was not very difficult for them to find me.

I was at the beach when those two mid 50 guys sat down close to me and started a conversation – they made sure I could hear every single word and it was kind of a strong language. They said:

- The most beautiful sunset they ever saw was in Washington DC.
- It is nice here on the island why worry too much – can even drive with the motorbike on the beach.
- They will cut the shit out of him etc.

Later my wife joined me and I aksed her about our french neighbour. She told me he went to look Rugby. I told her so they could hear: Rugby they play in Australia – that is unlikely American football, because they play without protection.

At the horizon over the ocean appeared some kind of a cigar shaped object. And I asked my wife: What is that? She said: I dont know! I Said: It is moving very fast. And than we went off to the Resort.

At the night time I heard people walking around the House – some windows were hit with sticks or something. The next day I went to my neighbour – but only his wife was there. I stayed there for a moment and one of the guys showed up there – and clearly wondered to see me there as well.

I was afraid and turned the blog off. I never saw them again.

But two weeks later I reactivated the content again.

I can remember in the same year – must be close to the date I met them on the island (1Q 2010) something very strange happened to me. I woke up in the middle of the night in the house on the beach (which belonged to the restaurant) in the South of Thailand and something was hovering at the ceiling of my room. It was bright yellow with a red dot in the middle and about 50cm in diameter. It was directly over my face for about 30 seconds to 1 minute (hard to say) before it dematerialized and disappeared. I never saw it before – and until now I never saw it again.
